

Draw a simple car - step by step tutorial

Step by step you will get to a simple car with the following template. It's perfect for your comic, as a doodle along the way, or for sketches of various kinds. Thanks to the template, you'll see how easy it can be to draw a vehicle.

⚠ For the drawing we recommend a pencil, a ruler, a pair of compasses, an eraser, an erasable drawing pen and the right colors to suit your taste.

1

Step 1: Car Floor

Draw a straight line with the pencil the length that fits your future car.

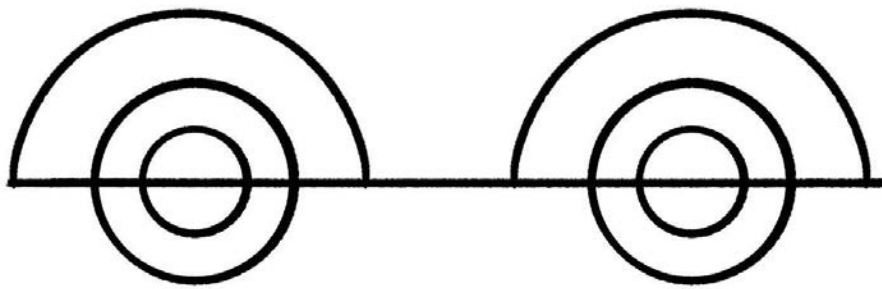

2

Step 2: Wheels

Use the compass to draw a small circle whose center is cut horizontally through the line already drawn. Draw a larger circle around it. Important: The line must protrude a little! Repeat for the rear wheel.

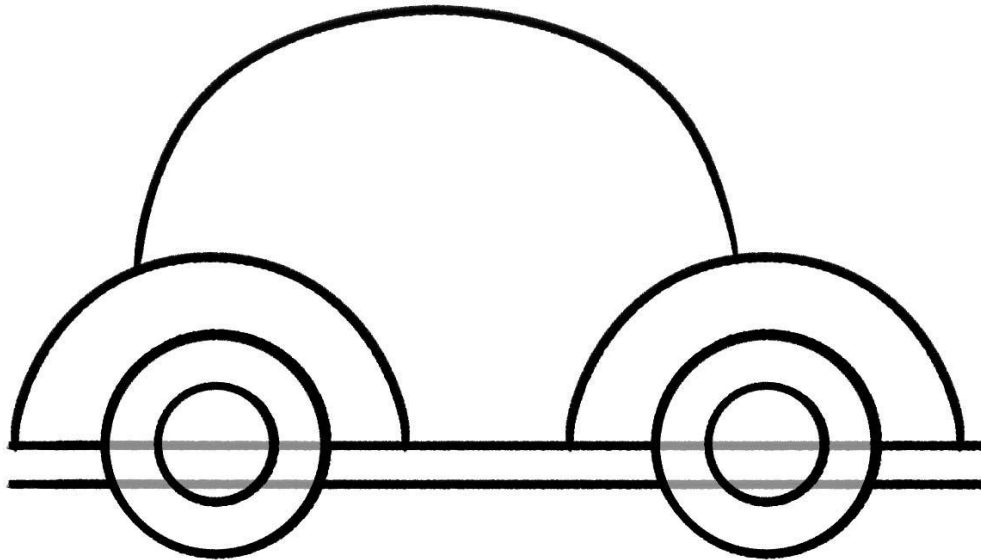

3

Step 3:

Wheel housings In the lower compartment, use a compass to draw the two wheels of the car. Keep enough distance from the edge of the page.

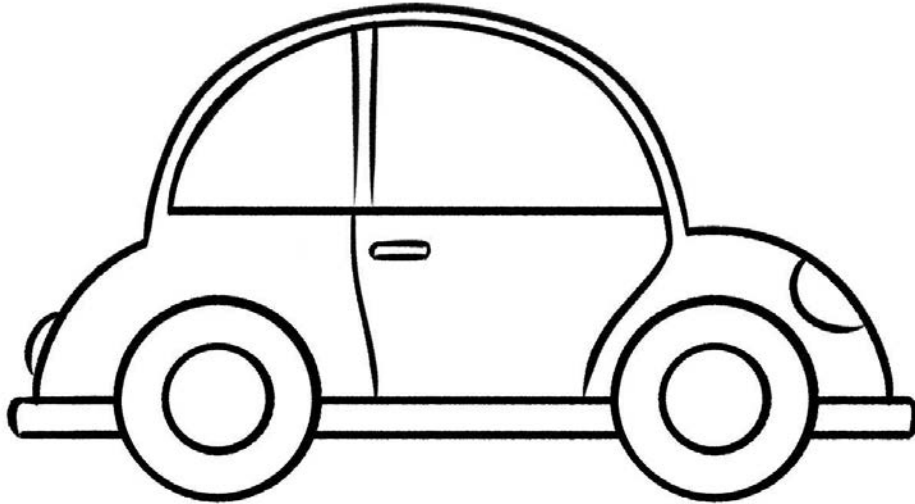

4

Step 4: Car roof

Now draw two more straight auxiliary lines with the pencil. With the first one you divide the area above the first auxiliary line into two equal halves. With the second you add the same area again below the first line.

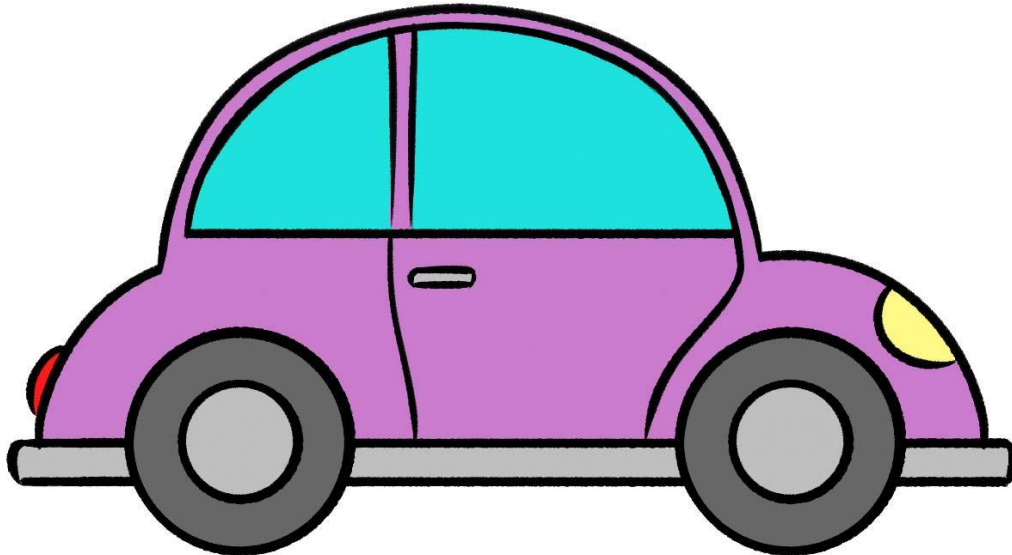

5

Step 5: Windows, Doors, Light

Now use the pencil to outline the shape of the body. Use the guidelines to orient yourself and to keep the proportions. Note the contours of the headlights and bumpers.

6

Step 6: Coloring

Draw the first details such as windows, lights or turn signals. Pay attention to clear and even shapes so that it looks as real as possible in the end.
