

How to draw a pig - step by step tutorial

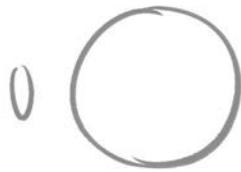

Drawing a pig is not difficult, but a few simple tricks can help make it look particularly realistic and lifelike. With these instructions you can draw a great pig step by step and have a good template for a farm or for fun menu design.

⚠ For this drawing you need a pencil, an eraser, a drawing pen and matching colors according to your preferences.

1

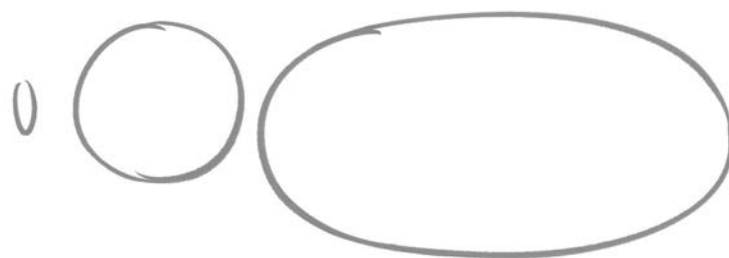

Step 1: Head and trunk

First, use the pencil to draw a circle for the head and a small oval that will later become the nose. The circle does not have to be exactly round and can simply be drawn freehand.

2

Step 2:

Body Using an elongated oval, sketch the body of the pig.

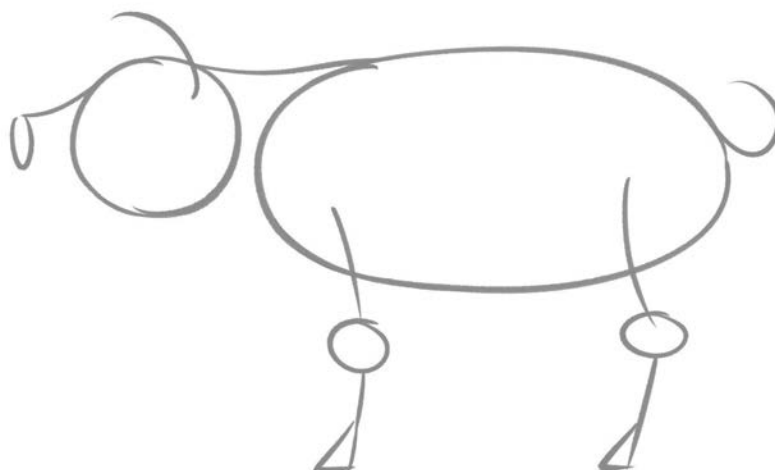

3

Step 3: Limbs

Now paint the legs. Maintain a natural posture. Use small circles to show the joints. Also sketch the hooves of the animal.

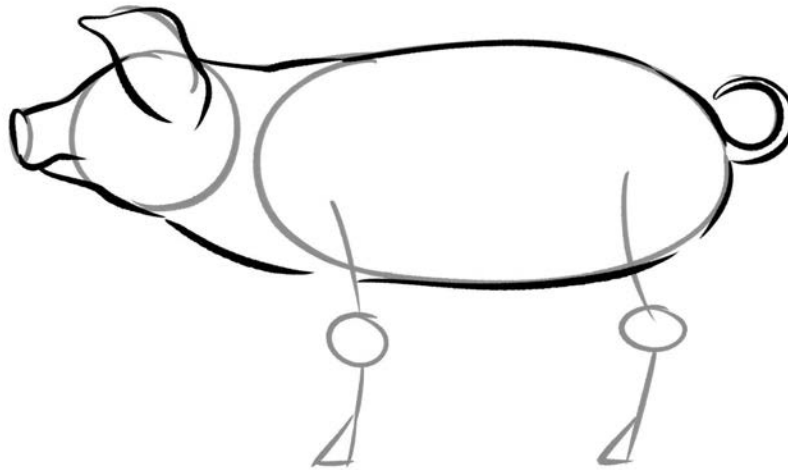

4

Step 4: Ears, Neck and Tail

Draw the neck, ears and tail of the pig with the pencil.

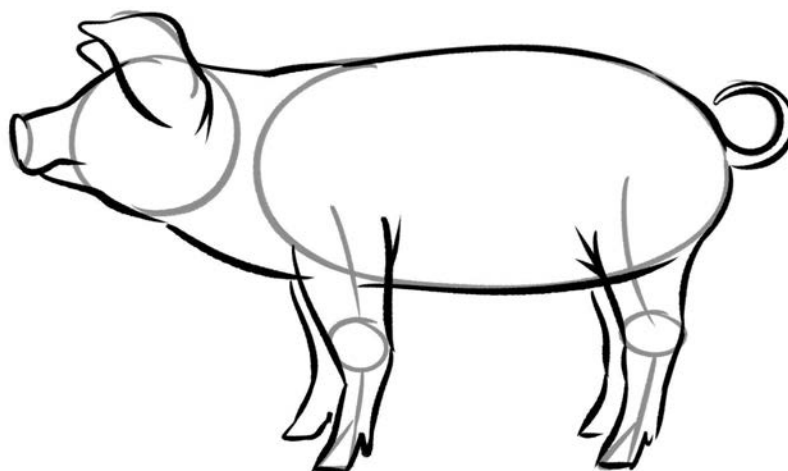

5

Step 5: First final contours

From now on, use a drawing pen. Use it to first trace the head and body. Finish the ears and curly tail.

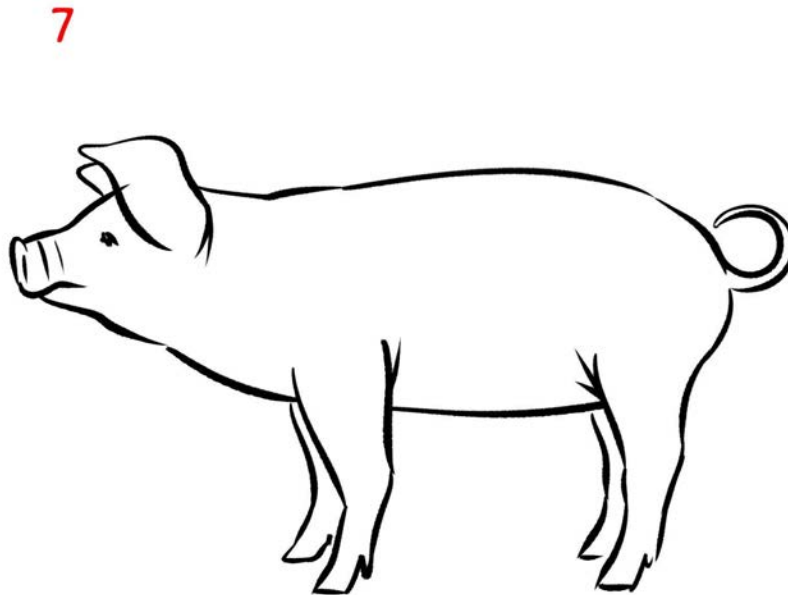

6

Step 6: Legs and Claws

Use the pencil to complete the legs and ears. Note the pig's distinctive feet.

Step 7: Eyes and Face

Complete the face with the eyes and skin folds around the muzzle. Now carefully erase the underlying pencil drawing and all auxiliary lines.

Step 8: Coloring

In the last step you can colorize your pig. If you like, you can also work with hatching to achieve a three-dimensional effect through the shadow and make the pig look even more realistic.
