

How to draw a simple dog - step by step instructions

Drawing this funny dog is very easy. This step-by-step guide shows you how to conjure up a cartoon-style dog on paper. Children in particular will have a lot of fun with this simple template.

⚠ You need colored pencils, a lead pencil, an erasable drawing pencil and an eraser.

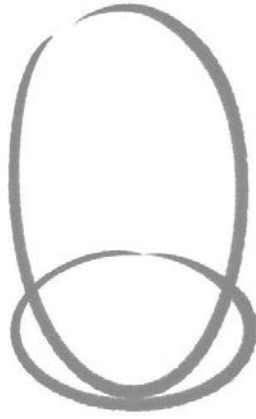

1

Step 1: Head

With a fine pencil line, draw an upright egg with the tip pointing downwards. This is the head.

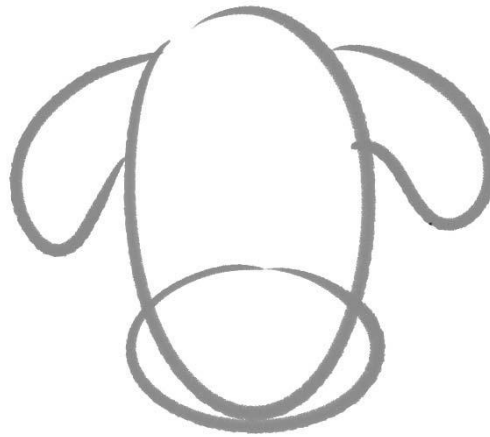

2

Step 2: Snout

Over the lower part you paint a crosswise small egg. This is the snout.

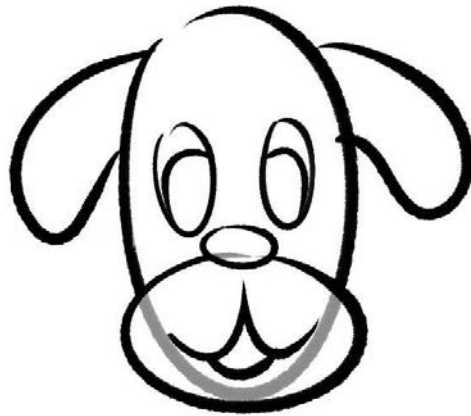

3

Step 3: Ears

Draw a floppy ear on the left and right of the head.

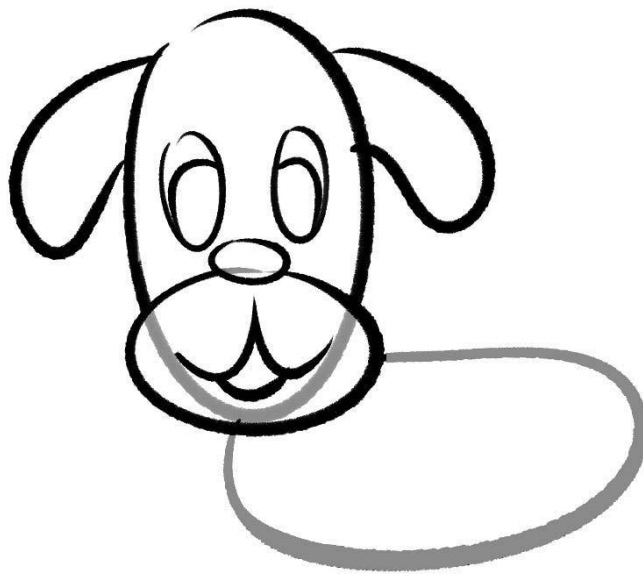

4

Step 4: Permanent contours for the head

For this step, you swap the pencil for the drawing pen. Now it's time for the face. You give the dog egg-shaped eyes and a crumpled nose. You also paint the slightly open mouth.

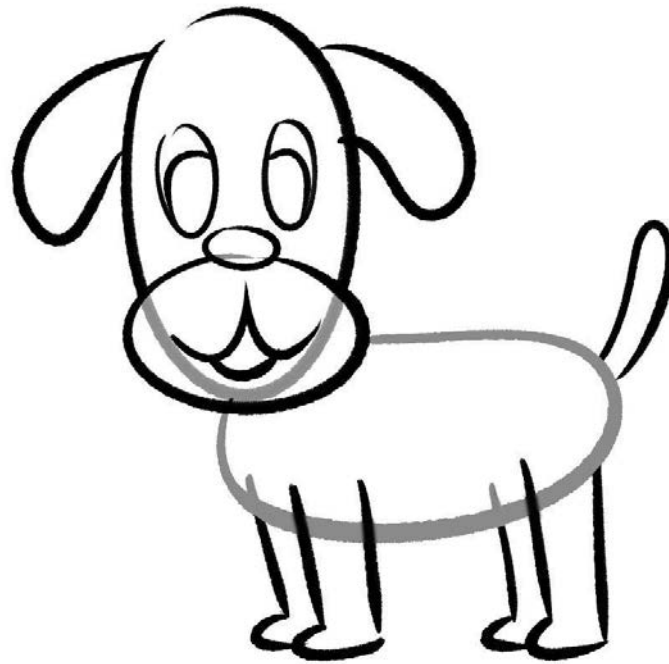

5

Step 5: Body

With a little swing you draw the body of the dog with the pencil. Look carefully at the position on the template.

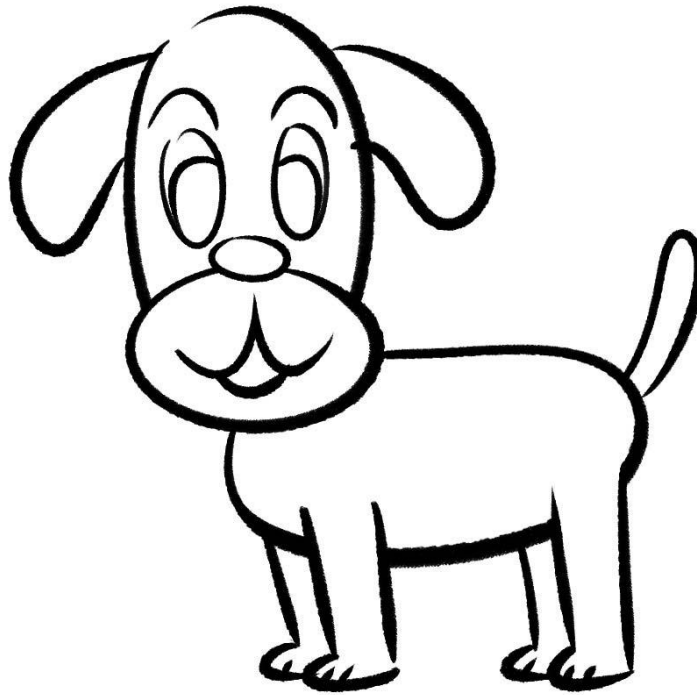

6

Step 6: Tail and Legs

You paint the tail on the posterior and the dog gets its legs.

7

Step 7: Removing the auxiliary lines

Use the drawing pen to trace all remaining contours. Then erase the auxiliary lines.

8

Step 8: Coloring

Put down the pencil and grab the colored pencils. Grab a brown pencil and use it to color in the fur. You leave the snout and the belly free. Use a beige tone for the belly and muzzle. The open mouth is red, the eyes get black pupils. Of course you can also paint your dog differently, for example as a white Dalmatian with black dots. Maybe you can use your own dog as a model.
